**SIoux FALLS PARTICIPATES IN NATIONWIDE DIALOGUE ON HEALTH CARE**

*Citizens' recommendations to be considered by Congress, White House*

**Washington, D.C.** – The Citizens' Health Care Working Group will host a community dialogue on health care in America in Sioux Falls, S.D., on **Saturday, May 6th**, from 10:00 am - 2:30 pm, Sioux Falls Convention Center, 1211 North West Avenue, Sioux Falls, SD 57104. This event is free and open to the public, but registration is requested. Registration is available online at [www.citizenshealthcare.gov](http://www.citizenshealthcare.gov). Onsite registration is also available.

"This is a chance to make a difference and tell the federal government how to improve the health care system," offered Christine Wright, a registered nurse from Sioux Falls, South Dakota and a member of the Working Group. "We have all heard the horror stories. Now, let's work toward a health care system that helps all Americans."

The community meetings feature a multimedia presentation that provides information on the nation's health care system followed by a moderated discussion of what health care services should be provided, how they should be delivered and financed, and trade-offs Americans are willing to make to improve the system. In addition, community members are encouraged to share their opinions and views by using the Public Comment Center, Citizens' Blog and Discussion Forums at [www.citizenshealthcare.gov](http://www.citizenshealthcare.gov).

This community meeting is one of three dozen taking place throughout the nation. At the conclusion of the community meetings, the Working Group will develop recommendations which the President will review and on which five Congressional Committees will hold hearings.

The Working Group, a nonpartisan group authorized by the Medicare Prescription Drug, Improvement and Modernization Act of 2003, is charged with listening to the views of the American people and developing recommendations for the President and Congress to provide U.S. citizens with "Health Care that Works for All Americans." The *Health Report to the American People*, was released in October and serves as a basis to engage the American people in a dialogue on health care access, cost and quality issues. The Working Group consists of 15 members --14 citizens of diverse backgrounds from across the country, and the Secretary of Health and Human Services.
